# Tickets that suit you

Our team is ready to help you find the ideal ticketing solution to meet your corporate needs and preferences. Whether you prefer paper scratchcards or electronic codes for our website and app, we offer a range of simple, flexible options.

## Scratchcards

A scratchcard is a paper ticket valid for 1 day of travel. The passenger just scratches off the day, month, and year they're traveling. It's a simple, convenient option for on-the-go travelers.

Available scratchcard tickets: CityBus(1-Day), CityWide(1-Day), SYBus(1-Day), SYConnect(1-Day), and SYConnect+(1-Day).

## Electronic Codes

Our easy-to-use codes let you order tickets from our full range to meet your travel needs. Simply provide the code to your traveler to redeem via the TravelMaster App. Website codes are available upon request.

You can redeem codes on behalf of the traveler, such as for students.

Codes can be used for mTickets or ITSO smartcard tickets. ITSO tickets must be loaded onto a smartcard to be valid for travel. Smartcards cost £1 each and can be purchased individually from our website, or in bulk for business orders, which can then be posted to the traveler. For age-related tickets (e.g., GetAbout, 18-22 discount), travelers need a valid age-related smartcard.

mTickets are mobile tickets that can be bought and stored on smartphones via the TravelMaster App, allowing passengers to skip the need for smartcards or paper tickets.

Available ITSO Smartcard tickets: CityBus(1,7,28 Day, Flexi5 & Annual), CityWide(1,7,28 Day, Flexi5 & Annual), GetAbout(1,7 & 28 Day), GetAbout+(1,7 & 28 Day), SYBus(1,7,28 Day, Flexi5 & Annual), SYConnect(1,7,28 Day, Flexi5 & Annual), SYConnect+(1,7,28 Day & Annual), 18-22 Discounted(1,7 & 28 Day).

Available mTickets: CityBus(1 Day, Bundle 5 1-Day), CityWide(1 Day, Bundle 5 1-Day), SYBus(1 Day, Bundle 5 1-Day), SYConnect(1 Day, Bundle 5 1-Day)

Bundle tickets, originally called Flexi5 tickets, are a package of five 1-day tickets that allow passengers to travel on multiple days of their choosing.

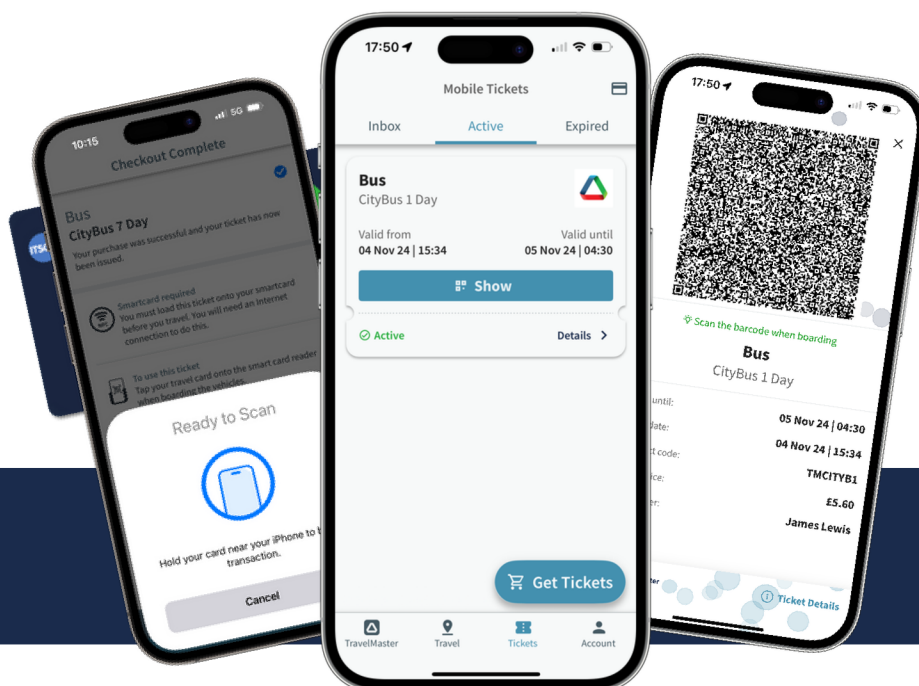

## TravelMaster App

You can easily purchase and use our full range of tickets through the TravelMaster App – the fastest way to get your travel tickets.

Simply download the app on any NFC-compatible Apple or Android device for a smooth travel experience. New to the app? No worries – just have the traveler register for an account and they'll be ready to go. If you prefer using the website, our Quick Sync feature makes ticket loading simple.

mTickets are digital tickets that can be bought and stored on smartphones via the TravelMaster App, removing the need for smartcards or paper tickets.

ITSO tickets must be loaded onto a smartcard to be valid for travel. Smartcards cost £1 each and can be purchased individually from our website or in bulk for business orders, which can then be posted directly to travelers. For age-related tickets (e.g., GetAbout or 18-22 discounts), a valid age-related smartcard is required.

In addition, we offer Flexi10, Flexi20, and Flexi50 tickets, available exclusively for businesses.

These business-only tickets are designed for companies that want to offer staff flexibility—whether it's for those who need to come into the office or employees who work from home, part-time, or on a flexible schedule. The details of these tickets are as follows:

**Flexi10: 10 tickets for the price of 8, valid for 90 days.**

**Flexi20: 20 tickets for the price of 15, valid for 90 days.**
