On top of these savings, for businesses buying in bulk TravelMaster also offers further percentage discounts depending on the number of days purchased:

3% - 1000-3000 days
(3-8 annual tickets or equivalent in day, week or 28 day tickets)

4% - 3001-7000 days
(9-19 more annual tickets or equivalent in day, week or 28 day tickets)

5% - 7000+ days
(20 or more annual tickets or equivalent in day, week or 28 day tickets)

This is a saving which can be passed on directly to staff or if you prefer help them by spreading payments of annual tickets through salary sacrifice or a company payment plan. Please note for anything implemented to spread the cost of travel, TravelMaster's refund rules would apply if someone left partway through a ticket.

For commuters aged between 18 and 22, we offer discounted rates which would be applied in addition to the bulk prices. However, a 18-22 Discount Card would be required to enjoy this saving.

Tickets that suit you

Our team is here to assist you in finding the perfect ticketing option that suits your corporate needs and preferences.

From paper scratchcard tickets to electronic codes for our website and App - we've got you covered with our simple ticketing options.

Scratchcards

A scratchcard is a paper ticket valid for 1-Day of travel. The traveller simply needs to scratch off the day, the month, and the relevant year they are travelling. Available for a variety of our tickets, they're convenient, easy to use and perfect for on-the-go travellers.

Available tickets include: CityBus, CityWide, RConnect, BConnect, DonConnect, SYConnect and SYConnect+.

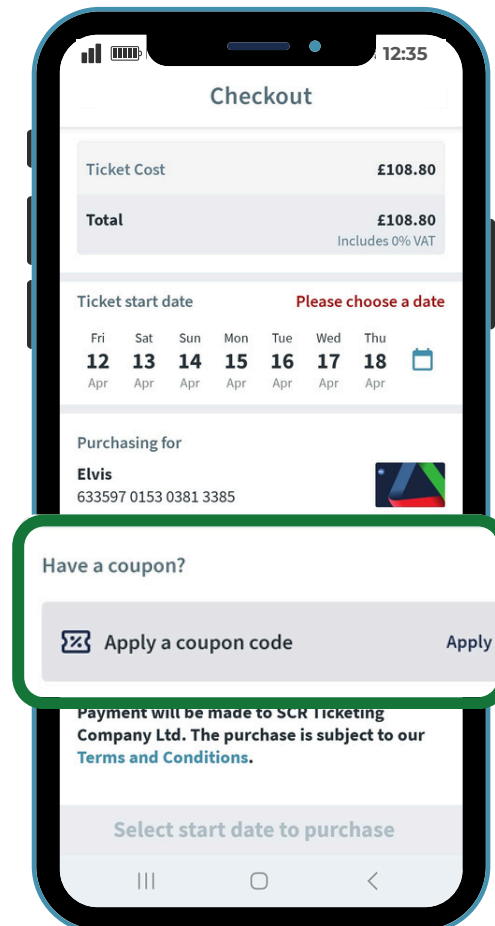

Electronic Codes

With our convenient codes, you can easily order from our full range of tickets to find one that fulfils your travel needs. You can then give the code to your traveller to redeem through the TravelMaster website. From 1st August, code redemption will move to the TravelMaster App and website codes will be available by special request.

For additional travel support, for example students, you can redeem the code on behalf of the traveller.

Tickets will need to be loaded to a smartcard to be valid for travel on-board. Smartcards cost £1 each and can be bought individually from our website. Smartcards are also available for bulk business orders which you can then post to your traveller.

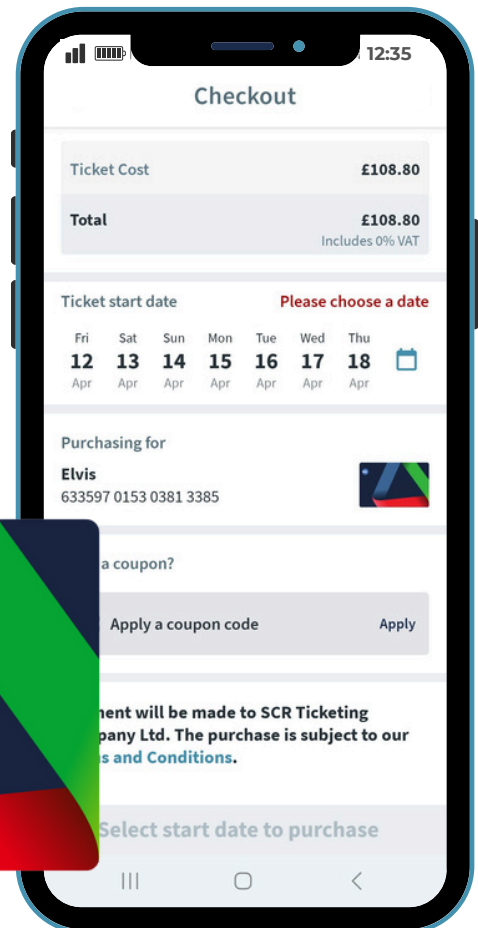

TravelMaster App

Our full ticket range is available to buy through the TravelMaster App - the fastest and easiest way to purchase and load travel tickets to a smartcard.

Simply download our app onto a NFC Compatible Apple/Android device and get ready for a seamless travel experience. Never used our App before? No worries, the traveller simply registers for an account and they'll be on their way. And for those who prefer the website, our Quick Sync option makes ticket loading a breeze. From Q3 2024 we are planning for our day tickets to be available directly through the App.

These are only available B2B and have been designed for companies who still want their staff to come into the office but also view working from home as a key part of their offer or could even provide flexibility for part time workers. The commercial offer for these is based on the following discounts and use periods.

**10 days (for the price of 8 – same discount as Flexi5)
with a 90-day use period**

**20 days (for the price of 15)
with a 90-day use period**

**50 days (for the price of 37)
with a 365-day use period**

Due to the generous discounting on these tickets 18-22 versions are not available and bulk discounts are also not available.
